## SCIP's Inaugural Celebrity Golf and Tennis Recognition Fundraising Event

Scholarship and Leadership Organization partners with the PGA to celebrate the successful completion of its Summer Leadership Program

New York: On Friday, August 16th, 2013, spending the day on the course with The Selective Corporate Internship Program's Class of 2013 on the Mosholu Golf Course, in Bronx, New York.

SCIP's new strategic partner, the PGA Metropolitan, hosted the event, which celebrated the latest achievements of SCIP's young leaders -- completing the Summer Leadership Program! The PGA has collaborated with the SCIP organization to teach its young leaders the game of golf. The event also celebrated SCIP's 2012 alumni who have moved on to college.

The first half of the day started bright and early with the young golfers teeing off at 7:30 a.m. They showed off their new skills learned on the PGA golf course with recreational activities for golfers and non-golfers alike. The exclusive IOMA of Paris was also on hand to offer mini skin care clinics along with other beauty surprises throughout the day. The second half of the fun-filled day included a VIP networking reception and Passing of the Torch Recognition Luncheon.

SCIP also saluted its corporate/entrepreneurial friends, educators and non-profit sponsors for their commitment and support. Special honor was given to The New York Life Insurance Company and the PGA Metropolitan for their dedication to the leaders of tomorrow.

Some of SCIP's supporters in attendance include; New York Life, PGA, IOMA, The New York Times, UFT, GHNYA, Turner Broadcasting, Sports Authority, Business Promotion, Fox 5, USTA, etc.

The highlight of the day was the PGA's special gift and presentation of Golf bags and Clubs to ALL the SCIP young leaders. This affords them the unique opportunity to continue to play golf after 6 weeks of intensive training by a certified PGA Coach.

And because they believe in giving back to a worthy cause, SCIP is donating a portion of the day's proceeds to the Hope Cancer Lodge, NYC.

Everyone brought their sunscreen, visor and their best game to an event aimed at showing local underserved youths a bright, successful future is not only possible but very much within reach.

The SCIP program provides bright, promising New York and New Jersey high school students with corporate mentoring, leadership development and internship opportunities to gain valuable business skills. SCIP also offers leadership training and development and internship opportunities through its alumni program.
